Why Business Retention and Expansion?

What Is the Process?

RDI's certified and trained professionals provide the tools, resources, and capacity to help launch a BR&E effort in your community. RDI customizes programming to align with local dynamics and ensure the program has what it takes to be successful for the long term. We'll work to leverage resources to get the program off the ground and jointly support fund development efforts by connecting your community to private, public, and philanthropic resources.
