

FROM NUMBERS TO ACTION FIELDWORK & HOW TO FOCUS

Preplanning:

- Gather and review studies, plans and projects that relate to your community and regional or local economy.

Step 1: What do you value and what are the indicators of success?

Step 2: What information might you need to track progress?

Step 3: Find your Data: Where can you find this information?

Step 4: Connect the Dots: What additional data would help contextualize or make your data meaningful?

Step 5: Next steps: What are your next steps to collect the additional information that you need?
